SUMMARY

Highly motivated and skilled entry-level Frontend Developer with a strong foundation in web development technologies and a passion for creating user-friendly and visually appealing websites. A fast learner with a keen eye for detail and an excellent team player with effective communication skills. Seeking an opportunity to contribute my skills and enthusiasm to a dynamic and collaborative development team.

EXPERIENCE

Executive Technician
Wise Technology

August 2021 - February 2023, Skikda, Algeria

PROJECTS

Platinum Gym

Portfolio project • June 2023 - July 2023

- Platinum Gym is a workout exercise website.
- With Platinum Gym you can search for exercises by typing the exercise name, a body part, or equipment.
- Click on one of the exercises, and you will get similar target muscle exercises, similar equipment exercises, and YouTube videos for the clicked exercise.
- It has over 1000 exercises using data from the ExerciseDB API.

Job Hunt

Portfolio project • April 2023 - May 2023

- JobHunt is an employment website. A job search website using data extracted from The muse API and stored in a JSON file.
- You can search for the job using a job title or keyword, or you can search for the location using a city, a state, or a country name.
- You can use the word remote instead of any location name.
- You can search for all the companies that we work and we worked with.

Book Tracker

Portfolio Project • March 2023 - April 2023

- Book Tracker is a CRUD app using local storage.
 - With Book Tracker, you can write, edit, read, archive, and delete notes.
 - You can organize your books into five categories: current reading, favorite, to read, have read, and archives.
 - Using the Google Books API, there are countless books that you can search for.
-
